

Emergency drugs kit

Be prepared for a medical emergency in your practice

Medical emergencies such as asthma, anaphylaxis, epileptic seizures are rare but could occur at anytime. Relevant authorities such as the Resuscitation Council and British National Formulary recommend appropriately qualified healthcare professionals have access to drugs to enable initial treatment and management of such emergencies.

The emergency drugs kit from BOC Healthcare contains the following drugs;

- Glyceryl trinitrate (GTN) spray (400micrograms/dose)
- Salbutamol aerosol inhaler (100micrograms/actuation)
- Adrenaline injection (1:1000, 1mg/ml)
- Aspirin dispersable (300mg)
- Glucagon injection (1mg)
- Oral glucose gel
- Midazolam 10mg (buccal)

Features of the complete drugs kit

- Supplied with a bespoke bag for easy storage and transport*
- Effective monitoring service for the replacement of expired drugs
- No intravenous access required for the drugs
- Items can be bought individually or as a part of a combination**

The emergency drugs kit from BOC Healthcare

* Bag is an optional extra and will incur a charge.

** Applies to only certain products, see reverse page for product codes.

Products

Product code	Product description and contents	Quantity
72946	Complete drugs kit with bag	
	Glyceryl trinitrate (GTN) spray (400mcg)	1
	Salbutamol aerosol inhaler (100mcg)	1
	Adrenaline (1:1000, 1mg/ml)	2
	Glucagon injection (1mg)	1
	Aspirin dispersable (300mg)	1
	Oral glucose gel	1
